

Indiana's Telephone Privacy law has been a "god-send" to our home. Since we do use many credit cards and have relationships with lenders, our name and number are out there. But, we decide who and when we want to correspond! The unwanted phone calls that we received prior to being on the "no call list" disturbed valuable Family Time! If there is to be a NATIONAL standard set...PLEASE don't let it UNDERMINE the great law already established in Indiana!
